Index

Use this Index for Radio and TV models prior to 1965. For 1965 and 1966 models see Index on page 43.

This Master INDEX lists every television and radio set included in Supreme Publications manuals. For sets up to and including most 1964 models see Index starting below and continued through page 42. For 1966, 1965, and some older sets and additions, see separate Index on pages 43 through 47. Use both Indices. Manufacturers' names are listed alphabetically from Admiral to Zenith. Under each manufacturer, models and chassis of that make are listed numerically on the left side of the column. Corresponding to each model entry there is a reference at the right. In such right hand reference, words such as: One, Three, and up to Twelve, refer to volume number of RADIO Diagram

manuals. Radio volumes 13 through 26 are listed by their corresponding years: 1953 through 1966. These numbers tell what volume is needed in each case. Reference to TV volumes is made by volume numbers, TV25 through TV5. In every reference entry, the figure following the volume number (-after the dash) tells you on what page in the volume stated, the material you need will be found. You will find the applicable year and volume number printed on the cover and backbone of every Supreme manual so they can be easily picked out. As a further aid, a cross-reference of volume numbers and years of manuals is given on the page at left (page 2).

HOW TO USE THIS

To find the material you need on every radio. TV, stereo, and auto set covered by all Supreme Publications manuals use the main Index section on pages 3 through 42, for models through 1964, and use the supplement Index section on pages 43-46, for 1965, 1966, and other additions. For further instructions and manual-volume chart see pages 2 and 3.
